

November 2012 Reno Update

Dear Praying Friends,

Thank you so much for praying for us. Here are some answers to prayer regarding the requests we left with you last month:

- * Things seemed to have settled down a bit here in Salinas and we thank the Lord for His continued protection over us.
- *The children at the Abelhinha school are starting to come back to Sunday School and we have seen a growth in the El- Shadai Sunday School also.
- *Local elections were held peacefully and Salinas elected a new mayor that will take office on January 1st, 2013. With the change in mayor will come a change in Secretary of Education. Likely each school will also receive a new director based on the choices of the new mayor. Pray with us about the ministry in the schools in these days of change. At this point we are just working to finish out the present school year that ends in December and prayerfully waiting to see what doors the Lord is opening and closing.
- *Another October blessing is that the El-Shadai group worked together two days to paint the Center. John spent many hours scraping the bars on the windows in preparation with some help from Carlos and then everyone gathered to paint. We are thankful for the time of fellowship and growing closer as well as the building looking much better☺

Bobby has been very sick in the last week with dengue fever. At times he has had excruciating pain in his bones from the fever. Thankfully he is some better – experiencing some relief while his pain meds are in effect. Please pray for him and for Fernanda too. She has had a lot on her with caring for Bobby and not feeling the best herself as she carries the little one.

We are looking forward to Robynn's return on the 14th of November. Please pray for her as she finishes packing, says her goodbyes and returns to the work here.

Dad and Mom are to arrive on the 20th of November for a visit. Please pray for health, safety and a profitable time of ministry. This past Sunday Mom blacked out because of dangerously low blood pressure. Thank the Lord all tests results came back normal but we do ask for extra prayer for her health as she makes this trip.

Thank you so much for standing in the gap for us!

Love,

The Renos in Brazil
