

March 2013 Reno Update

Dear Praying Friends,

We had a very useful week with the adolescents. Dani taught a Bible lesson on salvation each day and they also studied about Mary Slessor. Please continue to pray for the salvation of these young people.

Some of the adolescents practicing music for Sunday night.

Thank you for your continued prayers for John and his family. They are doing well and headed to Sao Luis on the 5th of March. Please pray as they settle back into the work in the villages of Big Yard, Liberty and Sao Luis.

Robynn is teaching English at a private school in town. We are praying for the Lord to give us some new contacts and to use her life as a witness. Some of her students are coming to our English classes at the Center. She is able to start class with a Proverb and one class wanted to see her Bible in English and asked for more Bible verses to translate! Please pray for wisdom and strength as she works with the 3yr olds through the high school seniors.

Hannah's Bible and English classes in the public schools should be starting this month. We are so thankful for the Lord allowing that door to stay open even with a new Secretary of Education and new principals in each school.

For the last six weeks we have travelled to the small village of Jutai each Thursday morning for Bible club. Each week we have had 12-18 children in attendance and at least an adult or two. As school classes resume this week, we are uncertain that we will be able to continue. Our Saturday and Sunday schedules are pretty full and the class with the trip there and back requires a three to four hour time slot. Please pray with us about what can be done!

Robynn teaching the children

Dani has been asked to present her call to Madagascar to a church in Belem next month. She had been hoping to go with an Independent Baptist mission board in the South, but found out last week that they don't work with single women. Please pray for the Lord to open His way before her!

Love in Him,

The Renos in Brazil
