

April 2015 Reno Update

Dear Praying Friends,

Thank you for praying for us this month. Thank the Lord for the safety given to John and his family as they visited supporters, family and friends and some new churches also. Please continue to pray for them as they travel this month.

Robynn suffered for two weeks with a nasty intestinal virus. Thank the Lord she is much better, though still weak yet. Pray for her strength, especially on Tuesdays when she teaches eight Bible and English classes at ABRE.

Hannah's schools started back up this month and she is enjoying getting back into the classrooms. This past week she was able to teach the Easter story in seven fourth grade classrooms. In three of these classrooms there was not a single student who could explain why we celebrate Easter. Please pray for her as she teaches Bible and English to them this year.

One of our joys this past month has been listening to our Institute students talk about what they are learning through their reading. Each week they have new discoveries to share from their Old Testament reading or books that they have been assigned. Please pray much for the edification of believers through these courses.

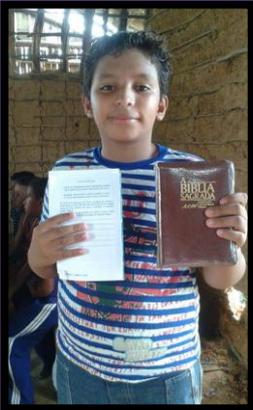

On Thursdays we continue to visit Helderlândia and Jutai. One week Carlos was able to go along and teach the older boys in Helderlândia. This past week the women and kids came together for the Easter lesson. Please pray much for the salvation of Marcia and Maicom in Helderlândia.

As schools started back, our Jutai group greatly diminished as almost all of the students there study in the morning. Still, each week we had one or two that came and this last week we had 29 as there were no classes for Easter Break. We are prayerfully considering continuing the morning time but adding an afternoon time that would allow the morning school students to participate. Also, we are hoping to talk with the

Jutai group working on crafts!

Two from Jutai finished the first Bible course and received their Bibles.

directors of the Santo Antonio school next week about starting Bible classes again. Please pray much for wisdom for where to best put our time and energy!

Please continue to pray for Carlos as he leads the church during John's absence. Pray also for Dani as she continues raising support to go to Madagascar. This past month she tried for an American tourist visa but was denied so she will not be able to join us this summer. She has been able to visit six churches while in Brasilia and will be visiting more in Fortaleza at the end of this month through the end of May.

Thank you for laboring together with us in prayer!

Love,

The Renos in Brazil
